

Archery Activity Kit List

We recommend bringing the following to your archery activity:

- Wellington boots or robust shoes for being on muddy ground.
- A flask of hot drink on a cold day.
- Cold drinks on a hot day.
- Sunscreen & midge repellent in the summer.
- Waterproofs (please bring even if forecast looks good).
- Warm clothing (please bring even if forecast looks good).

Most important:

- Please ensure you can tie any long hair back – the cams on our bows will catch any stray hairs leading to uncomfortable bald patches.
- Please bring at least one layer of long sleeved clothing that is not baggy on your arms.

We are able to arrange to purchase equipment on your behalf through our local retailer for you to use on our courses. If you require any items please get in contact for details and prices.

No dogs please – some of the countryside may have restrictions.

The course director will have a full group safety kit and may ask participants to carry some equipment split amongst them.

You will need to provide your own meals, accommodation and transport throughout the course – unless sorted with us by prior arrangement.

Please get in touch should you have any questions.
